

A light of peace throughout Europe for Ukraine

Dear fellow campaigners for peace in Ukraine,

We have a vision that people will connect with each other by lighting candles as a sign for peace and freedom in Ukraine - until a chain of lights running throughout Europe emerges.

Every evening after sunset, we will light a candle clearly visible to others - in the window, on the balcony or on the garden fence.

We ask everybody:

Join the campaign!

Light a candle for peace
in Ukraine every evening.

Until candles for peace are
shining all over Europe.

In solidarity the campaign team
